

**CONTRACTORS GUIDELINES FOR ALL CONSTRUCTION TAKING PLACE AT ROMANSBAAI**

Pre- Construction

Building Zones ;

All disturbance envelopes (known as Building Zones in the Architectural Guidelines) for every site must be identified, surveyed and staked out on every erf prior to any construction disturbance taking place.

All Building Zones should be clearly demarcated on each site.

Botanical ;

All sites must undergo Search and Rescue by approved authority prior to any disturbance taking place.

The applicant must apply for a permit before removal of any protected trees e.g. milkwoods.

Archaeological ;

Clearance must be approved by the ECO on each site before any activity commences.

Architectural ;

All designs are to be approved by the Committee prior too commencement of construction.

Construction Environmental Management Plan

All contractors are to familiarise themselves and their employees with the relevant requirements for their specific construction area.
